THE ROYALTY STORY

SINCE 1992

THE ESPLANADE AND THE ROYALTY, THE ICONIC DUO OF CAUTERETS

2021

In June 2021, Émilie (an optician) and Arnaud (a carpenter), along with their children, took over the brasserie located in the heart of the Galerie de l'Esplanade des Œufs, an iconic landmark of Cauterets. Overlooking the gave since 1901, this metal gallery–heir to Baltard's architectural style–reflects the elegance of the Belle Époque.

According to Jacques Longué, the structure may have originated from the 1889 Universal Exhibition or from one of the side gates of the 1900 Exhibition, later acquired by the town of Cauterets. Once home to a bookstore, a perfumery, and even a crêperie, the gallery has lived many lives.

Émilie and Arnaud undertook a complete renovation of the brasserie, drawing inspiration from the Art Deco style to echo both the history of the site and the refinement of its metal architecture.
